IT does seem that common sense ough to teach a person that buying goods abroad will stop their manufacture at home; that stopping home manufacture will throw home workmen out of employment; that without employment workman will be without money; that a man without money can't buy food or clothes, no matter how "cheap" they are. PRESIDENT CLEVELAND and Secretary CARLISLE delayed until after the election the announcement that the Government would be compelled to ask bankers at nce for a loan of another \$50,000,000 the second since the beginning of this calendar year. Gold bonds for that amount, bearing five per cent. interest, will be issued in a few days at a price that will net investors about three per cent. annually. The bonded debt will thus have been increased \$100,000,000 this year, the first increase since the close the war. The new loan is made necessary by the depleted gold reserve, the sibility of renewed exports of gold to possibility of renewed exports of gold to Europe, the unexpectedly large increase in the public expenditures under Secre-tary Carlesle's Administration and by the decline in income under the new Wilson-Gorman Tariff Act. The expen-ditures and receipts of the Government onth left a deficit of nearly \$14,-

The new Tariff Law has been a numiliating and startling failure thus far as a revenue maker, and the Treas ury experts are in a fog of uncertainty and dismay regarding its future operasendent CLEVELAND evidently using the strength of the system, thereby destroying the delay the announcement until after strength of the streng ions. THE Cleveland-Carlisle Administration will, when the new bonds are issue have increased the bonded intere bearing debt of the Gevernment \$100, 000,000 inside of one year—the firs increase since the close of the war! No amount of country schoolhouse oratory can refute such a fact as this. Oh, yes; Br'er Marsh, you fellows are making a splendid record!

THE Democratic party was placed in

full power at Washington on the 4th of March, 1893. In less, therefore, than two years it has only served to demon strate its capacity for mischief. But the people have had sufficient time to measure it, and they have measured it. They began to indicate their disapproval in Ohio in 1893; then came Maine, Vermont, Massachusetts, Connecticut, Rhode Island, New Jersey and New York. The November election indicates no reaction, but the reverse. In every Northern state results have been similar, and in the South inroads have been made that foreshadow the impairment of the Demoeratic solidity in that section. Upon the whole, says The Commercial Gazette the Democratic party is again in the downward way, and there is not enough left of it upon which to build for the future. Those Congressmen who were in control, and maddened by their great majority, are now at the bottom of the ladder, with not strength enough left to reclimb it. The rounds, too, are broken, and a new policy, through new men largely and through the old party tha governed successfully for thirty years is soon to be inaugurated. There is in this a cause for general rejoicing.

That Cathelier Can Teach in Public Schools in Religion's Gard.

Privaturani, Pa., Nov. 13.—In the case of John Hyson et al. vs. the School District of Gallitzin Borough et al., the supreme court Monday sfirmed the school directors of Gallitzin Borough from permitting sectarian teaching in the common schools of the borough and from employing as teachers sisters or members of the Order of St. Joseph, and from employing as teachers sisters or members of the Order of St. Joseph. The court below ruled: "We conclude that, in the absence of proof that religious sectarian instruction was imparted by them during school hours, or religious sectarian instruction was injunction members of the order of Sisters of St. Joseph from teaching in the public schools in the garb of their order, nor the school directors from employing or permitting them to act in that capacity.
